

Remarks

In order to expedite the prosecution of the present application applicants respectfully submit currently amended claim 1, cancel claim 15 without prejudice to the subject matter therein, reserving the right to prosecute said claims in divisional applications, and add claim 16. The amended and new claims are supported throughout the application as filed, and add no new substantive matter. In particular, claim 1 has been narrowed by incorporating the limitations of originally filed dependent claims 3 and 4, and by incorporation of a preference for R2 which has basis on page 5 of the specification. Claims 8, 9, 11, and 13 have been amended to remove multiple dependencies. Claim 16 covers 4 examples found on pages 17, 22, and 23 of the specification. Applicants respectfully request that amended and new claims be entered.

Respectfully submitted,
